WORKSHOP (2021-22)

ON

“DISASTER MANAGEMENT”

Report

A Workshop on **“DISASTER MANAGEMENT”** was organized in the premises of Vidhyashram Institute of Teacher's Training, Jodhpur on Saturday, December 18, 2021. The Disaster management workshop, organized by **Dr. Yogesh Sharma**, Director, B.Ed Cell, Jai Narain Vyas University, Jodhpur,

The workshop aimed to enhance the knowledge and skills of students in disaster preparedness, response, and recovery. The workshop provided participants valuable insights into effective disaster management strategies.

The Disaster Management Workshop was attended by a diverse group of faculty members and students who showed a keen interest in disaster management and community service.

Workshop Objectives:

The workshop aimed to achieve the following objectives:

- To raise awareness about disaster management and its significance in society.
- To equip participants with practical skills and knowledge related to disaster preparedness, response, and recovery.
- To foster a sense of responsibility and preparedness among faculty members and students.
- To provide a platform for sharing experiences, best practices, and innovative approaches to disaster management.

Dr. Sharma delivered informative presentations on various aspects of disaster management, including risk assessment, emergency planning, and post-disaster recovery. The participants were actively engaged in the workshop activities & demonstrations, helping them to apply their knowledge and skills in realistic scenarios.

Outcomes and Achievements:

The Disaster Management Workshop resulted in several outcomes and achievements:

- Enhanced knowledge and understanding of disaster management concepts and strategies among the participants.
- Strengthened collaboration and coordination among faculty members and students in disaster management efforts.
- Raised awareness and preparedness for potential future disasters.
